### Sudden and Afflictive Death.

The Rev. John S. Maginnis, D. D. Professor of Pastoral Theology in the Rochester Theological Seminary, died of disease of the beart Friday, October This is one of the heaviest blows that

could fall on that Institution, and the cause of learning and religion generally. Dr. Maginnis was educated at Brown University and Newton Theological institution, was settled as pastor at Portland, Me., and Providence, R, I. for several years, and left the latter place for a Professorship in Madison University, and last year Madison for Rochester. He was an amiable man, an upright christian, a ripe scholar in general literature, and a propound theologian. He possessed one of the strongest and best cultivated minds to be found in our country. He has written some of the ablestarticles for Reviews. His review of Dr. Woods' Theological Works in an article published in the Christian Review last year, was a giant labor, and proved him to be worthy of a Professorship in Roshester or any other Theological Institution. In a controversy for the faith as once delivered to the saints, he was a match for any antagonist. Such a man's death is a loss of greatest magnitude to the Kingdom of Christ on earth, and all, who knew him, mourn over this sad event. Rochester University is hereft of one of her brightest lights. The best Female Medicine known! The best Female Medicine known!

The peculiar maladies to which females are subject, commonly produce great hodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength, there is a loss of nervolgs power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and complete as 'Dr. Gaysott's Improved Extract of Yellow Dock and Sarsaparilla.'

poisons is not to cure the disease, or to remove from the system the pains, but to Deaden the nerves, to weaken and stop the ner-vous energy, to paralyze the functions of the nervous system & destroy sensation.
